

To protect and preserve the health, safety and well-being of the citizens of San Diego through effective and efficient maintenance and operation of the City's transportation infrastructure. To this end, every member of the Transportation Department strives for responsiveness, dedication, effectiveness and excellence in public service.

Department Description

The Transportation Department maintains and operates the City's transportation infrastructure and enforces parking statutes. To this end, every member of the Transportation Department strives for responsiveness, dedication, effectiveness, and excellence in public service.

Milestones Met/Services Provided

In Fiscal Year 2002, the Street Division entered into contracts that provided for: the repair and resurfacing of 23 miles of asphalt streets; the slurry sealing of 101 miles of streets; the repair of 482 locations of sidewalks damaged by parkway tree roots; and the repair of 125 locations of sidewalks deteriorated by age and disrepair. Approximately 12,000 tons of asphalt were removed and recycled during the resurfacing contract, and approximately 53,000 recycled tires were used in the slurry seal surface treatment.

Two large drainage channel projects, the cleaning and dredging of the Sorrento Valley and Tijuana River Drainage Channels, were completed in Fiscal Year 2002. These environmentally sensitive projects, formerly performed by contract, were completely permitted and accomplished by Street Division personnel.

In Fiscal Year 2002, 160 Neighborhood Traffic Watch speed trailer deliveries were made to provide feedback to residents of the actual speed of vehicles traveling through their streets.

In response to the Mayor's Goal #2, Reduce traffic congestion and air pollution, 15% of City employees participated in the Transportation Alternatives Program as follows: 1,552 bus and trolley passes sold each month; 55 coaster passes sold each month; 59 car pool participants; and 23 van pool participants.

In Fiscal Year 2002, in association with the Uptown Partnership, the Parking Management Division implemented a rechargeable parking card system which allows residents to recharge their parking cards in any denomination.

In partnership with the State of California and People

for Trees, the Street Division facilitated the planting of approximately 1,240 trees in Fiscal Year 2002. The effort to plant proper trees in the City's parkways will save sidewalk repair costs in future years.

The Binational Affairs Program established communication and partnerships with other governmental bodies, agencies and community groups in San Diego that work on border issues.

Future Outlook

The Street Division is redesigning its current Internet website to provide users more information regarding the Street Division's work activities, and provide the ability to create service requests utilizing a mapping application. The website will also allow residents to return and check on the status of their previously submitted request.

Over the past few years, the City has been allocated over \$15 million in federal Congestion Mitigation and Air Quality (CMAQ) grant funding for traffic flow improvements. The majority of these projects is still in design and will be completed shortly. The projects include 857 Traffic Signal Coordination Timing Projects, 56 Traffic Signal Interconnect Projects, 36 Protected Permissive Left Turns, 3 Motorist Information Systems, and 26 Signal Detection Improvements.

The Binational Affairs Program is working with the County of San Diego, the City of Tijuana, the International Boundary and Water Commission, the California Environmental Protection Agency, and the Department of Transportation to lower the amount of trash contamination on both sides of the border.

The Parking Management Division is planning to reorganize the Disabled Parking Enforcement Team, a group of volunteer citizens, to place an emphasis on education and information regarding disabled parking rather than enforcement only.

The Parking Management Division is also considering the implementation of a residential task force similar to the one in the Transportation Department in the City of Los Angeles. Parking Enforcement Officers would be assigned to this specialized unit in an effort to be responsive to the specific parking issues within communities in San Diego. The officers would respond to complaints in

Department Staffing

Future Outlook (continued)

residential areas and perform outreach services at community meetings.

Average cost per tree planted, trimmed, and/or removed		\$47.75	\$77	\$75

⁽¹⁾ Due to the negative impact of the events of September 11, 2001 on tourism and the economy, as well as a focus on training new officers, the number of tickets in Fiscal Years 2002 and 2003 were significantly reduced.

⁽²⁾ Due to an emphasis on education and information regarding disabled parking, rather than enforcement only, fewer citations are being issued and customer service is being improved.

Division/Major Program Descriptions

Parking Management

The Parking Management Division issues parking citations and impounds vehicles in response to violations of California and local vehicle codes, including disabled parking statutes. Parking Management also processes payments on parking citations, performs administrative reviews, administers the judicial hearings for contested citations, and maintains and repairs parking meters.

Street Division

The Street Division maintains and repairs all streets, alleys, sidewalks, and bridges in the City; cleans and repairs drain inlets, pipes, and channels; sweeps commercial and residential streets; maintains and repairs all City street lights and traffic signals; performs traffic lane striping; paints and removes traffic markings and legends; maintains and manufactures traffic signs; and maintains the City's street trees.

Traffic Engineering

The Traffic Engineering Division conducts traffic investigations and studies; re-times traffic signal systems; codes traffic accidents; conducts traffic counts and radar speed surveys to set speed limits; schedules street, bicycle, and traffic projects in the Capital Improvements Program; proposes and monitors annual traffic capital projects; investigates and installs street lights; coordinates with the San Diego Association of Governments, the California Department of Transportation, and the Metropolitan Transit Development Board on traffic matters and for the City's Bicycle Program; and manages the City employees' Transportation Alternatives Program, which administers transportation incentives to employees including reduced costs for transit passes, vanpool fares, daily parking fees, and rebates for carpools that use the Concourse Parkade.

Transportation Management

The Management Division provides direction, policy, planning and overall administration to all of the divisions within the Transportation Department. The Division also includes the Office of Binational Affairs which coordinates binational projects and addresses binational issues between City officials and their counterparts in Mexico.

Transportation

Fiscal Year 2004

GENERAL FUND

Parking Management-

Additional support is required for completion of the lease/purchase of the new hand-held parking citation issuance devices.

Traffic Engineering Division-

Additional support is required to install Graphic Information System (GIS) capabilities to the division's Traffic Request and Management System. The GIS will allow the creation of maps showing overlaps of traffic collisions and requests for traffic improvements.

Addition of 2.00 Associate Traffic Engineers will improve the service level of timing traffic signals, increase the number of grants pursued for timing signals, and increase the commitment to Intelligent Transportation Systems.

STREET DIVISION OPERATING FUND

Street Division-

Addition of 14.00 Utility Worker I positions and support to maintain the current level of service, assuming a four percent annual rate of increase in the inventory of streets, alleys, sidewalks, storm drain channels, pipes, street lights, buildings and grounds needing maintenance.

Fiscal Year 2005

GENERAL FUND

Parking Management-

Additional support is required for the replacement of six hold-over vehicles.

Additional funding is required to replace seven scooters per year.

Traffic Engineering Division-

Addition of 1.00 Clerical Assistant to scan and index all traffic requests on file in the division. Information will be transferred to CD-ROM.

STREET DIVISION OPERATING FUND

Street Division-

Addition of 14.00 Utility Worker I positions and support to maintain the current level of service, assuming a four percent annual rate of increase in the inventory of streets, alleys, sidewalks, storm drain channels, pipes, street lights, buildings and

grounds needing maintenance.

Fiscal Year 2006

GENERAL FUND

Traffic Engineering Division-

Addition of 1.00 Assistant Traffic Engineer to work on the timing of traffic signals due to the increase of traffic congestion and increase in traffic requests.

STREET DIVISION OPERATING FUND

Street Division-

Addition of 14.00 Utility Worker I positions and support to maintain the current level of service, assuming a four percent annual rate of increase in the inventory of streets, alleys, sidewalks, storm drain channels, pipes, street lights, building and grounds needing maintenance.

Fiscal Year 2007

GENERAL FUND

Traffic Engineering Division-

Addition of 1.00 Assistant Traffic Engineer to work on the timing of traffic signals due to the increase in traffic congestion and increase in traffic requests.

STREET DIVISION OPERATING FUND

Street Division-

Addition of 14.00 Utility Worker I positions and support to maintain the current level of service, assuming a four percent annual rate of increase in the inventory of streets, alleys, sidewalks, storm drain channels, pipes, street lights, buildings and grounds needing maintenance.
